

# JPI-Veradigm® Practice Management (VPM) Integration

JPI-VPM Integration powered by Laserfiche®, is natively integrated into Veradigm® Practice Management (VPM). JPI Data Resource, specializing in healthcare back-office, administrative, and records management allows Veradigm clients to automate end-to-end business processes.

## Integrated Access to Laserfiche Allows for Completion of Key Tasks Across VPM

### Financial Inquiry

Account Inquiry and payment history: Drill down to the scanned documents within Laserfiche for items that have a bill date.

### Account Ledger

Drill down to scanned document for billed items.

### Unpaid Claims Management

Search for associated scanned documents within Laserfiche while working on a follow-up task.

*Available in Office Manager Module*

## Your Challenges Solved

### Scalability

Storage and document management that can manage millions of pages and scales as a medical practice grows.

### Intelligent Automation

Allows clients to reduce labor hours and errors, which is vital to digitizing exceptionally large volumes of documents and incorporating them into a workflow integrated system for process and retrieval.

### Scanning

Identify and capture metadata automatically allowing for text search and downstream workflow utilization.

### Integration

Out of the box integration options and proprietary integration with VPM.

## Benefits

Seamless automation

Front end data capture

Downstream data usage

Instant search and reference of discovery documents

Archive and integration abilities

Increased productivity

## Security & Compliance

SOC2 Type 2

HIPAA

DoD 5015.2 records

Management applications

## Enjoy the Benefits from Centralization

### Complete document discovery and search of relevant documents in Laserfiche directly from VPM:

- ✓ Quick search and retrieval of document research and EOB's from Laserfiche without leaving VPM.
- ✓ Secure access to reference and discovery documents.
- ✓ Ensure accuracy of information from a centralized workflow.
- ✓ Reduce follow-up and reconciliation times.

## Additional Tasks

### Pending Claims

Search for associated scanned docs within Laserfiche for claims generated against voucher number.

### Payment Entry

Search and reference related scanned docs within Laserfiche while entering payment information.
