JPI Data Resource Announces Partnership with Veradigm

JPI Data Resource [JPI], a twenty-two-year Premier Partner Solution Provider of Laserfiche electronic content management solution has announced its strategic partnership with Veradigm, a leading provider of healthcare data and technology solutions.

Veradigm is a healthcare technology company that drives value through its unique combination of platforms, data, expertise, connectivity, and scale. The Veradigm Network features a dynamic community of solutions and partners providing advanced insights, technology, and data-driven solutions, all working together to transform healthcare insightfully.

JPI is a proven leader in business process management and automation that provides reliable and scalable solutions decreasing or eliminating labor hours & errors and reducing accounts receivable days.

Specializing in Healthcare back-office, administrative, and records automation four key functions JPI solutions offers a

Veradigm client are:

1. **Scalability** – storage and document management that can manage millions of pages and scales as a medical practice grows.
2. **Intelligent Automation** – allows clients to reduce labor hours and errors, which is vital to digitizing exceptionally large volumes of documents and incorporating them into a workflow integrated system for process and retrieval.
3. **Scanning** – identify and capture metadata automatically allowing for text search and downstream workflow utilization.
4. **Integration** – out of the box integration options and proprietary integration with Veradigm Practice Management. Clients can quickly search and retrieve document research and EOB's from Laserfiche without leaving the Veradigm Practice Management client interface.

About JPI

A Louisiana based company, JPI Data Resource was founded by James Bergeron, and has been in business and an award-winning Premier Partner Solution Provider of Laserfiche Products since 2001. JPI started with one employee and a handful of clients. The first employee ever hired is still employed with them today, and they continue to grow and serve their client base with a wealth of knowledge & skill, innovative solutions, while bringing automation and streamlining business processes.
